

Abid Ali Tanoli

Full Stack Web Developer (MERN) | AI-Augmented Development | Accountant & Receivable Management

Karachi, Pakistan · +92 332 3178928 · visionaryabidi@gmail.com · github.com/Abid-Tanoli

PROFESSIONAL SUMMARY

Full Stack Web Developer with hands-on MERN expertise (MongoDB, Express.js, React.js, Node.js) and a growing specialization in AI-augmented development — integrating tools such as Antigravity, OpenAI Codex, Qwen, and OpenCode into real production workflows. Currently an intern at Bano Qabil Incubation Center, building BQ-PLAY, a live cricket scoring platform with real-time updates. A complementary 10+ year background in Accounting & Finance — including receivable management supervision — brings analytical rigor, structured problem-solving, and financial reporting discipline to every engineering decision.

SKILLS

Frontend: HTML5 & CSS3, JavaScript (ES6+), React.js (Hooks, Context API), Tailwind CSS, responsive/mobile-first design
Backend & Database: Node.js, Express.js, MongoDB & Mongoose, JWT/session auth, REST API design, third-party integrations, Socket.IO
AI-Augmented Development: Antigravity, OpenAI Codex, Qwen, OpenCode, prompt engineering, AI agent workflow integration
Deployment & DevOps: Vercel, Railway, GitHub Actions, environment management, serverless patterns
Tools & Workflow: Git & GitHub, VS Code, Postman, npm, Agile collaboration, Playwright

EXPERIENCE

- Full Stack Web Development Intern — Bano Qabil Incubation Center

Apr 2025 – Present

 - Building production MERN applications in an agile team, from MongoDB schema design to responsive React frontends to deployment.
 - Built and deployed BQ-PLAY, a live cricket scoring platform with real-time updates (MERN + Socket.IO, 25-page user app, 20-page admin console, 22 models).
 - Designing REST APIs and MongoDB schemas for a 20+ route, 22-model backend with AI-powered commentary (Anthropic Claude) and live cricket data integrations.
 - Integrating AI coding tools (Antigravity, Codex, Qwen, OpenCode) into daily development workflows to design, build, and debug features faster.
 - Collaborating via Git/GitHub in agile sprints; shipping features end-to-end with Playwright test coverage.
- Accountant | Receivable Management Supervision — AK Electronics

Nov 2018 – Present

 - Own full-cycle accounting and supervise receivable management, client reconciliation, and collection follow-up.
 - Prepare daily cash flow reports, general ledgers, and tax compliance filings.
 - Manage monthly balance reconciliations and client account management.
 - Build financial MIS reports and dashboards for senior management decision-making.
- Receivable Management Supervisor — Digicom QMobile (Pvt) Ltd

Mar 2014 – Nov 2017

 - Reconciled receivables across South Pakistan; produced DBC reports and sales-vs-return analysis.
 - Maintained Oracle ERP updates; built MIS reports and financial dashboards.
- Data Compilation Officer — Engro Fertilizers (Rahbar Project)

Apr 2018 – Jul 2018

 - Verified farmer documents and land status records; maintained data integrity and compliance across the program database.

PROJECTS

- BQ-PLAY (CricAll) — Live Cricket Scoring Platform

github.com/Abid-Tanoli/BQ-PLAY

 - Full-stack MERN platform with real-time score updates via Socket.IO across a public user app and a dedicated admin scoring console.

- Ball-by-ball scoring with match setup wizard, DRS review, super-over/tie resolution, wagon wheel, and pitch maps; AI commentary via Anthropic Claude.
- 22 MongoDB models, 20+ REST route groups, live cricket data via RapidAPI/CricAPI and YouTube Data API.

LowPriceMart — Full-Stack E-Commerce github.com/Abid-Tanoli/LowPriceMart

- Three-tier e-commerce app: customer storefront, admin dashboard with sales analytics (Recharts), and Node/Express + MongoDB backend.
- JWT authentication, Cloudinary image uploads, Nodemailer email flows, Zod validation across the stack, and a Playwright e2e suite.

Event Organizer — Event Booking & Management Platform github.com/Abid-Tanoli/Event-Organizer

- Full-stack TypeScript platform: React + TS frontend, Node/Express + MongoDB backend, JWT auth, and a Vercel serverless-ready API entry point.

EDUCATION

B.Com (Bachelor of Commerce) — University of Karachi In Progress

Intermediate (Pre-Medical) — Crescent Degree College, Karachi Completed

CERTIFICATIONS

- Backend Development — Node.js, MongoDB, Express.js (Bano Qabil 4.0, Fall)
- React.js Course (Bano Qabil 4.0)
- Web Development — HTML, CSS, JavaScript (Bano Qabil 3.0)
- Computerized Accounting — Sindh Board of Technical Education (A+ Grade)
